### About Brno

Brno, the capital of the South Moravian Region in the southeast of the Czech Republic, is the country's second-largest city. It combines historical architecture with modern urban development, featuring landmarks such as Špilberk Castle, the Cathedral of St. Peter and Paul and the functionalist Villa Tugendhat. Brno is home to several well-known universities, including the Mendel University or Masaryk University, making it an important center of education, research and innovation. The city has a lively cultural scene with theaters, galleries, festivals, and a growing gastronomic culture. Brno provides the perfect place for this session, with its deep historical roots and spirit of modern creativity. Brno symbolises the power of connection - between past and future, culture and innovation and thought and action. It inspires us to think boldly and work together.
