Arrival & Departure

Arrive to Domov mládeže 1 Zlín on Friday, 20th November 2026 between 9:00 and 11:30 CET. The departures will be from the Faculty of Humanities of the University of Tomáš Baťa on Sunday, 22nd November from 18:00 CET.

About Zlín & the Motto

Zlín started as an insignificant craftsmen's town hidden in the woods of eastern Moravia, with an unexpected potential for becoming an industrial giant and economic driver of early Czechoslovakia. Entrepreneur Tomáš Baťa ignited a spark of progress and, through his diligence, transformed it into a brave modern city representing an opportunity not only for Europe, but for the whole world. The ideas of his progressive mind are still visibly stamped into the city's profile - from specific housing represented by functionalist gems to strong infrastructure and reliable public services. Zlín remains an important industrial as well as cultural centre and significant part of modern history, one that Czechs can be truly proud of.
With the motto "Steered by Freedom through Changing Seasons" we open our minds to the endless possibilities of the world and navigate around whatever obstacle is present. At this time, freedom is fragile and endangered once again, and the only way to preserve it is through cooperation, community, and adaptation.
